

//Single Inheritance

```
package Ass_practice_project1;

public class B {

    public void print(String name) {
        System.out.println(name);
    }
}

public class C extends B {

    public static void main(String[] args) {
        // TODO Auto-generated method stub
        C obj = new C();
        obj.print("Ranjan");
    }
}
```

//Multi-level Inheritance

```
package Ass_practice_project1;

public class A {

    public void display(String name) {
        System.out.println(name);
    }
}

public class B extends A {

    public void print(String name) {
        System.out.println(name);
    }
}

public class C extends B {

    public static void main(String[] args) {
        // TODO Auto-generated method stub
        C obj = new C();
        obj.display("Satya");
        obj.print("Ranjan");
    }
}
```
