

```
package Ass_practice_project1;

public class WhileLoop {

    public static void main(String[] args) {
        int num = 0;
        while(num <= 5) {
            System.out.println(num);
            num++;
        }
    }
}
```
